In my personal opinion, there is nothing like having a sys Cil ", for which it happened to me to buy a year ago. and guitar), but to some extent these these books have removed part of the roof: I have become a much better medical comparison with which I raise and I would never have achieved the same progress in the learning skills together with the tasks that the volume of basic theory followed, which by the way only enter the book, "two-in-one". "music in theory and practical" are gathered by two parts; part of "the foundations of the music "And part B" the structures structured Turales of the music. " Part of a work with the same as before, notation, scales, tone, key, modes, interval, transposition and chords. Part B is a bit more advanced and consists of all together 12 different chapters, it is not important others, more than 400 workbook pages to accompany the music in theory and practical, volume 1 with the learning of final discount label and about two hundred pages of work lessons: meat real in the bone for every penny that is worth it, in other words! Really, if things are catching in their student's apartment, I would prefer to buy this book instead of a used coach ... it will never regret it if you will surely combine it with a metoical backup for the trial in the instrument itself. As a supplement, I must confess that I have never seen anything more detailed, complex, and fully recommended! Buy now! NOW!!! NOW!!!
